The official languages of the Conference will be English and Spanish. **Simultaneous translations** will be available during all plenary sessions.

**Hotel transfers** to and from the Zaragoza-Delicias train station or the Zaragoza Airport will be available to all attendees. Please contact **events@zlc.edu.es**.

Participants are responsible for making their own **travel and hotel arrangements**. However, the official agency to assist you with travel and accommodation is Viajes El Corte Inglés, please contact them at **congresos_zaz@viajeseci.es**.

All **presentations** will take place in the Main Conference Room and breakout sessions will be held in separate rooms at the **NH Gran Hotel**.

A **Walking Tour** of the city of Zaragoza will leave from the NH Gran Hotel at 7:30 pm and will finish at the restaurant Casa Montal at 8:30 pm for **dinner**.

If you have **any queries**, please contact the organizing committee at **+34 976 070 147** or e-mail to **events@zlc.edu.es**.

**Organized by:**

MIT-ZARAGOZA
International Logistics Program

ZARAGOZA
Logistics Center
Pharmaceutical Industry, Government, NGOs Dialog on Supply Chain Issues

Description
Inadequate healthcare supply chains in resource constrained settings contribute to poor product and service uptake, and, thus, limited coverage of the population. This impedes large segments of the population from accessing health products and services, and leads to unnecessary illness and death. There is a close link between the design and management of a supply chain and its success. Increasing access to health implies, among other factors, creating awareness among the community about diseases and their treatments and making resources available to the public. These matters call for the alignment of financing, governmental procedures, health worker considerations, distribution of medicines, etc in order to ensure that the population as a whole will be able to have access to the treatment they need, when they need it. The supply chain field includes several of the factors that need attention and the supply chain directly affects the health outcome of a population. From the factors that are most frequently raised among the health community we have selected three that will be treated in depth at the 3rd Global Health Supply Chain Summit.

Conference Details
The GHSC Summit 2010 is designed to address three specific topics of interest for the global health sector in three tracks. Each track will be composed of presentations (ideally from pharmaceutical industry, government and NGOs perspectives) and at the end of each track and following the presentations there will be a break-out session where all participants will be able to voice their own view-points on the issues. The first track will discuss price differentials and its implications in the health sector. The second track will discuss donor coordination issues. The third track will discuss in-country supply chain structures. Throughout the conference, we are looking for leaders that can comment on these topics, from developing countries, from the private or public sectors, from the health sector. The intention is to offer a platform that will allow both the voicing of constraints and issues, as well as sharing the solutions to problems that have been found by others in the past. Your experience will feed minds and stimulate thinking. We believe that the audience will, perhaps, generate new thinking that can bring light to the global health sector.
Day 1: Thursday, December 16, 2010

08:30 - 09:00  Registration

09:00 - 09:30  Opening Remarks: Welcome to attendees
   Government of Aragon
   Helene Möller, UNICEF

09:30 - 10:00  Jan Van Erps, RBM Secretariat
   SMS for Life Pilot in Tanzania

10:00 - 10:30  Evan Lee, Senior Policy Officer at FIND
   SMS Technology

10:30 - 11:00  Jérémie Gallien, London Business School
   Pilot for Redesign of Public Sector Medicine Supply Chain in Zambia

11:00 - 11:30  Coffee Break

11:30 - 13:00  Break-out Session

13:00 - 14:00  Lunch

14:00 - 14:30  Wiltshire Johnson, Pharmacy Board of Sierra Leone
   Sierra Leone Free Health Care Program Challenges

14:30 - 15:00  Phyllis Ocran, UNICEF
   How major key players are coming together to achieve the objective

15:00 - 15:30  Kevin Pilz, USAID
   Professionalization of SCM initiative

15:30 - 16:00  Ananth Iyer, Purdue University
   Donor Coordination / Harmonization: Impact of restriction (from the system, donors, etc) on the health outcome

16:00 - 16:30  Coffee Break

16:30 - 18:00  Break-out Session

19:30 - 20:30  Walking Tour of Zaragoza

20:30  Dinner sponsored by ROCE Partners
Day 2: Friday, December 17, 2010

09:00 - 09:30  
**Suerie Moon**, Harvard Kennedy School of Government and Harvard School of Public Health  
*Price Differentials*

09:30 - 10:00  
**Evan Lee**, Senior Policy Officer at FIND  
*Price Differentials*

10:00 - 11:00  
**Break-out Session**

11:00 - 11:30  
**Coffee Break**

11:30 - 12:00  
**Tala Jallow**, Global Fund  
*In-country Supply Chain Structure Considerations*

12:00 - 12:30  
**Helen Tata**, WHO  
*In-country HR structure*

12:30 - 13:00  
**Jay Swaminathan**, University of North Carolina  
*Plumpynuts Project with UNICEF*

13:00 - 14:00  
**Lunch**

14:00 - 14:30  
**Daniel Corsten**, IE Business School  
*P.O.S Data and its importance to reduce stock outs*

14:30 - 15:00  
**Richard Lloyd**, ROCE Partners  
*Integrated Planning for Health*

15:00 - 15:30  
**Noel Watson & Leah Hasselback**, ZLC & Village Reach  
*In-country Supply Chain Structure: The Nigerian Case*

15:30 - 15:45  
**Coffee Break**

15:45 - 16:45  
**Break-out Session**

16:45 - 17:00  
**Closing Remarks**  
**Santiago Kraiselburd**, ZLC
Zaragoza Logistics Center
The Zaragoza Logistics Center (ZLC) is a research institute established by the Government of Aragon in Spain in partnership with the Massachusetts Institute of Technology and the University of Zaragoza to develop world-class education and research in logistics and supply chain management. To facilitate closer cooperation with industry, the ZLC is located in the middle of PLAZA, the largest logistics park in Europe. The ZLC has been chosen by the Ministry of Education and Science in Spain to coordinate CNC-LOGÍSTICA, the National Center of Excellence in Logistics & Supply Chain Management. The ZLC offers graduate and executive education - taught in English and Spanish, outreach events, and industry partnership. For more information, see www.zlc.edu.es

MIT - Zaragoza International Logistics Program
The MIT-Zaragoza International Logistics Program is a unique research and education partnership that brings together the supply chain interests of academia, industry and government – all linked to the development of the largest logistics park in Europe. The program was established in 2003 by the MIT Center for Transportation and Logistics (CTL), the University of Zaragoza (Spain), the government of Aragon, industry partners, and the PLAZA logistics park in Zaragoza, Spain. To rapidly disseminate new knowledge and train future leaders, the MIT-Zaragoza program offers graduate and executive education, outreach events, and industry partnerships. For more information, see http://ctl.mit.edu/about_us/global_scale_network
