"Supply Chain Management is the art and science of getting products from where they're made to where you the consumer want them to be."

Chris Caplice
Massachusetts Institute of Technology (MIT)
Executive Director of the Center for Transportation & Logistics
Spain is significantly cheaper than many other European countries. The people are warm and always ready to help in your wonderful journey ahead. Zaragoza, the 5th largest city in Spain, has all the conveniences of a big city without most of the drawbacks. The tapas experience is certainly unique! Within a 300km radius, you can be in Madrid, Barcelona, Valencia, or San Sebastián, as well as several low-cost flights to spanish islands, London, Paris, Berlin, Rome, Amsterdam or other great European destinations.

“I chose this program because of its affiliation with MIT, the #1 Engineering School. Also, we have access to top-notch professors not only here in Zaragoza but also during the exchange at MIT, USA.”

Vincent Chong, Philippines
Amazon, Luxembourg
EU Senior Supply Chain Business Intelligence
