TALENT HUB FOR SUPPLY CHAIN

Master of Engineering in Logistics and Supply Chain Management (ZLOG)

The Master of Engineering in Logistics and Supply Chain Management (ZLOG) is a partnership between the University of Zaragoza and the Center for Transportation and Logistics of the Massachusetts Institute of Technology (MIT) through the MIT Global SCALE Network.

It is a high-quality degree taught in a truly global setting which provides its graduates with proficiency in both problem solving and change leadership.

“I had an amazing time at Zaragoza, thanks to the most diverse, funny and brilliant bunch of fellow students from more than 20 countries, the very knowledgeable and experienced faculty, and the program staff that was totally invested in us succeeding in our journey”.

Nimesh Parikh, ZLOG 2009, India
Supply Chain Network Design Manager at Schneider Electric

The Spanish experience

Spain is significantly cheaper than many other European countries. The people are warm and always ready to help in your wonderful journey ahead. Zaragoza, the 5th largest city in Spain, has all the conveniences of a big city without most of the drawbacks. The tapas experience is certainly unique! Within a 300km radius, you can be in Madrid, Barcelona, Valencia, or San Sebastián, as well as several low-cost flights to great European destinations.
